

The City of Santa Rosa and the Southeast Greenway Community Partnership are starting a collaborative community engagement process to **develop a shared vision for future land uses for the Southeast Greenway**. Over the next year, we will be working to develop a land use plan for the entire 57-acre site.

JOIN THE DISCUSSION!

First Community Workshop

Interact with other participants to brainstorm about future land uses, circulation, and Guiding Principles that should shape the Southeast Greenway.

August 6, 2016

10 am - 12 pm

Montgomery High School Student Union
1250 Hahman Drive

Second Community Workshop

Give feedback on draft land use alternatives and draft Guiding Principles for the Southeast Greenway and help identify the preferred uses for environmental review.

October 8, 2016

10 am - 12 pm

Location to be determined.

Additional Community Input (Survey)

To provide additional opportunities for public input, a survey will be conducted in a variety of ways. Online, hard copy, and in person surveys will be available in October and November to get the community's feedback on the most desired land uses and circulation improvements for the site.

Sign up to be on our email list and check our website for the latest information!

Questions? If you can't make a workshop, please feel free to contact Lisa Kranz, City of Santa Rosa.

707-543-3259

lkranz@srcity.org

Childcare for ages 3 & up will be provided on-site.

What is the Southeast Greenway?

The greenway is comprised of approximately 57 acres of undeveloped land owned by the California Department of Transportation, originally for the extension of Highway 12, located in southeast Santa Rosa. The land follows a linear 1.9-mile long path extending from Farmers Lane to Spring Lake Regional Park.

What is this project about?

This project involves identifying appropriate land uses for the site, improving connections, formalizing the land use plan through an amendment to the City's General Plan, and rezoning the property to allow for new uses. The potential uses being considered are:

- Parks and open space
- Neighborhood Retail
- Recreational facilities
- Housing

Who is involved?

The City of Santa Rosa is part of the Southeast Greenway Community Partnership, comprised of the City, Sonoma County Regional Parks, Sonoma County Water Agency, LandPaths, Southeast Greenway Campaign, and Sonoma Land Trust. The Partnership has been actively engaged in a collaborative effort to facilitate and achieve the transfer of the Southeast Greenway to local ownership for public and other uses.
